FINAL REPORT

ASSIGNMENT OF LAWRENCE W REHFELD
VISITING PROFESSOR, AFOSR/NA
2 MARCH - 31 AUGUST 1981

1. During my tenure with the Aerospace Sciences Directorate, the following duties were performed:

- a. Assumed major role for management of Task 2307/B2, Structural Integrity;
- b. Reviewed proposals relevant to Tasks 2307/B1 and 2307/B2;
- c. Prepared numerous procurement packages to assist Dr Anthony Amos;
- d. Provided consulting support to Dr Amos in areas of my expertise;
- e. Actively participated with Drs Ball, Ulrich and Amos in defining, preparing and advocating a research initiative for Spacecraft Structures and Materials;
- f. Performed (limited) state-of-the-art reviews and suggested long range research plans for composites and fracture mechanics research.

2. This assignment has been a memorable experience. The breadth and diversity of my exposure to topics outside the normal range provided by the Georgia Tech environment has been very enriching. Of particular value was the extended travel to aerospace companies as part of preparation for the Spacecraft Structures and Materials Research Initiative.

LAWRENCE W REHFELD
Visiting Professor
